## CRIBT243

Harmony and Essentiality in Contemporary Design. The series celebrates the perfect fusion of aesthetics and functionality, offering a sensory experience inspired by nature. BOTTE speaks a language of sinuosity and balance. Every detail has been crafted with precision, with particular attention to the spout, resulting from a targeted study to create an impeccable connection. This element returns to the mixer a harmony inspired by natural forms: a water droplet, a wind-sculpted dune, soft lines that evoke delicacy and serenity. BOTTE's fluid and harmonious surfaces transform space into a place of welcome and sweetness. "Forms speak. We love listening to them," declare the designers, emphasizing how BOTTE embodies the essence of objects that combine lightness with a distinctive personality. The bathroom is no longer just a functional space, but an intimate environment to rediscover one's essence.
